

Kraków, 8<sup>th</sup> of May 2023

On the occasion of the 32nd anniversary of the WADI organization, as well as 30 years of its aid activities in Iraqi-Kurdistan, we send our best wishes and appreciation to the entire team. For over three decades, WADI has consistently helped those in need and has been involved in the fight for human rights, women's safety and counteracting violence.

Since the Russian attack on Ukraine, the WADI organization has been supporting our Association by sharing its crisis management experience and providing strategic advice and knowledge. We are grateful for invaluable help in the process of creating reception points for people with disabilities from Ukraine, as well as for implementing #SafeAid and #HelpResponsible campaigns aimed at preventing violence, human trafficking and cybercrime. Thanks to this, assistance provided to refugees with disabilities from Ukraine can be effective and safe. We believe that our cooperation will be continued and will bring even greater results in the future.

We wish you many more years of activity, many successes and satisfaction from your work in the areas of humanitarian aid, education, counteracting violence and empowering of marginalised communities. May your work continue to contribute to changing the lives of many people for the better!

Kind regards,  
Olga Wojdyńska  
CEO of Mudita Association
